PROFILE

I am a software developer who specializes in web development. I am passionate about creating innovative solutions and excel in crafting visually appealing and highly functional web applications. I have experience working with technologies such as JavaScript, TypeScript, ReactJs, NextJs, HTML5, CSS3, Redux, Firebase, Git, npm, Vite, Node.Js, MongoDB, and MUI. I am committed to continuous improvement, problem-solving, and delivering impactful software solutions for the web.

WORK EXPERIENCE

Full Stack Developer

ComercioSJ   Nov - 2022 / Presente

I developed a marketplace specifically designed to meet the needs of local businesses in San Juan, Argentina, as well as the expectations of their customers. As part of my experience as a full-stack developer, I led the creation of a complete web application from scratch, encompassing the implementation of server-side services, building the client-side user interface, and comprehensive database management.

Tech stack:
- React.Js 18
- Next.Js 13
- MUI
- Firebase
- Redux

Full Stack Developer

App Lavadero - Freelance   Oct - 2023 / Jan - 2024

I developed a comprehensive web application from scratch for the organization of a car wash located in Buenos Aires, Argentina. This application encompassed the development of both the backend, frontend services, and user interface, as well as the management of the database. I implemented a responsive design that allowed the application to be used on various devices with the same user experience.

Tech stack:
- React.Js 18
- Next.Js 14
- Tailwind
- Node.Js
- Express.Js
- MongoDB
